EMERGENCY LIGHTING BATTERIES

FEATURES & CHARACTERISTICS

- ◆ High-temperature NiCd & NiMH cells for use with emergency lighting units
- ◆ Constant high-temperature operation at 55 °C - depending on the emergency lighting unit used
- ◆ Suitable for emergency lighting equipment as per IEC 60598-2-22
- ◆ Complies with IEC 61951-2 (constant charging load test)
- ◆ Complies with ICEL1010
- ◆ Good charging properties at high temperature
- ◆ 4-year life time in operation
- ◆ Certified quality manufacturer
- ◆ Various custom configurations of battery packs from 2V to 12V or tailor made to requirement

NiCd CELLS

OTHER PRODUCTS WE CAN OFFER

- Uniross Rechargeable NiMH in all industry standard sizes (AAA, AA, C, D, 9V...)
- Uniross Ready-To-Use Hybrio rechargeable NiMH in all industry sizes
- Uniross Battery Chargers & Power Adaptors
- Uniross USB Power banks for charging a myriad of portable devices such as MP3, Ipad, Ipad, Tablets, Mobiles....
- Uniross Lithium Coin cells, CR123A, CR2, 9V Lithium
- Uniross Zinc Chloride Batteries
- Uniross Digital Camera batteries, cordless phone batteries
- Lithium Polymer & battery packs
- LiFePO4 Lithium Cells & Battery packs
- LiFePO4 for Industrial & UPSs 1U and 2U High Battery packs
- LiFePO4 Golf Cart, Mobility & Solar Storage, etc..
